Bootstrap

### Other

Git

MySQL

MongoDB

Nodejs

Unix CLI

Full stack Web Developer with a Certificate in Full Stack Development from Southern Methodist University. Possess strengths in problem solving, meeting deadlines, and learning new technologies. When working on projects, I strive to create a flexible product that's easy to navigate, easy to update, and easy to look at. Excited to employ skills and partner with like-minded staff to create and improve websites in innovative ways.

## Projects

---

My Wellness Journey - [live demo](#) | [Github Repo](#)

- Worked with a team of four to create a full website that lets you make and keep track of a wellness goal and share your progress with others
- Tools used: Express, Express-Handlebars, HTML 5, CSS, Javascript, jQuery, Passport.js, MySQL, Bulma CSS framework

Pizza App - [live demo](#) | [Github Repo](#)

- Worked with a team of four to create a proof of concept progressive web app that shows a restaurant menu, allows you to sign up/log in, and lets you create an order for one or more pizzas.
- Tools used: React, Javascript, HTML 5, CSS, Passport, MySQL, Sequelize, Bootstrap

## Education

---

Full Stack Coding Bootcamp - Southern Methodist University

- January 2020 - April 2020
- Graduated April 9th 2020
